- Dobroslav Bojović - General Director;
- Siniša Tekić - Executive Director for finance, accounting and planning;
- Momčilo Jevtić - Executive Director for legal affairs,
- Ilijana Stamenković - Executive Director for operative business.

3. OWNERSHIP STRUCTURE

According to records of the Central Securities Depository, the registered ownership structure of the Company as at 31 March 2022 is presented in the Note 30.1.

4. BASIS FOR THE PREPARATION AND PRESENTATION OF FINANCIAL STATEMENTS

Financial statements of the Company were prepared in compliance with the Law on Accounting (RS Official Gazette, No. 73/2019 and 44/2021 - other law - hereinafter: the Law).

Pursuant to the Law, in recognizing, valuation, presentation and disclosure of items in financial statements, large legal entities, legal entities obliged to prepare consolidated financial statements (mother legal entities), public companies, that is, companies preparing to become public, irrespective of their size, shall apply International Financial Reporting Standards (hereinafter: IFRS). IFRS, within the meaning of the Law, are:

- The Framework for the preparation and presentation of financial statements;
- International Accounting Standards – IAS;
- International Financial Reporting Standards - IFRS and related Interpretations, issued by the International Financial Reporting Interpretations Committee, subsequent amendments to these Standards and the related Interpretations, as approved by the International Accounting Standards Committee, the translation of which was adopted and published by the Ministry in charge of finances.

The Company financial statements were presented in the form and with the content specified by the provisions of the Rules on the Contents and Form of Financial Statements' Forms and Contents and Form of the Statistical Report Form submitted by Companies, Cooperatives and Entrepreneurs (RS Official Gazette, No. 89/2020).

These Rules, among other things, laid down the form and content of individual positions in the Balance Sheet, Income Statement, Other Comprehensive Income Report, Cash Flow Statement, Statement of Changes in Equity and Notes to Financial Statements. Pursuant to the above mentioned Rules, amounts in RSD thousands are to be presented in these forms.

Chart of Accounts and content of accounts in the Chart of Accounts were prescribed by the Rules on Chart of Accounts and Contents of Accounts in the Chart of Accounts for Companies, Cooperatives and Entrepreneurs (RS Official Gazette, No. 89/2020).

In preparation of Company financial statements, the following laws and by-laws were taken into account, among others:

- Law on Corporate Income Tax ("Official Gazette of RS", No. 25/2001, 80/2002, 43/2003, 84/2004, 18/2010, 101/2011, 119/2012, 47/2013, 108/2013, 68/2014 - other law, 142/2014, 91/2015 - authentic interpretation, 112/2015, 113/2017, 95/2018, 86/2019, 153/2020 and 118/2021);
- Law on Added Value Tax ("Official Gazette of RS", No. 84/2004, 86/2004 - corrigendum, 61/2005, 61/2007, 93/2012, 108/2013, 68/2014 - other law, 142/2014, 83/2015, 108/2016, 113/2017, 30/2018, 72/2019 and 153/2020);
- Rules on the Contents of Tax Balance and Other Issues of Relevance for Calculation of Corporate Income Tax ("Official Gazette of RS", No. 20/2014, 41/2015, 101/2016, 8/2019, 94/2019, 159/2020 and 97/2021);
- Rules on the Contents of Tax Return for Calculation of Corporate Income Tax ("Official Gazette of RS", No. 30/2015, 101/2016, 44/2018 – other laws, 8/2019, 94/2019, 159/2020 and 97/2021);
- Rules on Method of Classification of Non-Current Assets and on Method of Calculation of Depreciation for Taxing Purposes ("Official Gazette of RS", No. 116/2004, 99/2010, 104/2018 and 8/2019);
- Rules on Transfer Pricing and Methods Applied in compliance with the “arm’s length” principle in determining the price of transactions among related parties ("Official Gazette of RS", No. 61/2013, 8/2014, 94/2019 and 95/2021) and others.

Among the legal acts comprising the internal regulations of the Company, in preparation of the financial statements of the Company, the Rules on Accounting and Accounting Policies in the Company, as adopted on 30 November 2020 by the Executive Board of the Company, Rules on Changes and Amendments to the Rules on Accounting in the Company, as adopted on 29 November 2021 by the Executive Board of the Company, and the Rules on Accounting Policies in the Company, as adopted on 23 December 2020 by the Supervisory Board of the Company was used. In addition to the above listed, other internal acts of the Company were used, such as, for example, the Collective Agreement of Energoprojekt Holding Plc. regulating employment in the country.

The Law on Capital Market (RS Official Gazette, No. 31/2011, 112/2015, 108/2016, 9/2020 and 153/2020) set down mandatory data to be included in the annual, six monthly and quarterly statements of public companies with securities listed in the regulated markets.

It should be noted here that in certain cases, not all the relevant provisions of the IFRS or of the Interpretations thereof were taken into account in preparation of the Company financial statements.

The accounting regulations of the Republic of Serbia, and thus the presented financial statements of the Company, deviate from IFRS in the following aspects:

- Pursuant to the Law on Accounting (RS Official Gazette, No. 73/2019 and 44/2021 - other law), the financial statements in the Republic of Serbia are to be presented in the format stipulated by the Rules on the Contents and Form of the Financial Statements Forms and the Content and Form of Statistical Report Forms for Companies, Cooperatives and Entrepreneurs, which deviates from the presentation and names of certain general purpose financial statements, as well as from the presentation of certain balance positions stipulated by IAS 1 - "Presentation of Financial Statements"; and
- Off-balance assets and off-balance liabilities were presented in the Balance Sheet form. According to the IFRS definition, these items are neither assets, nor liabilities.

In addition to the above stated, some deviations were due to the different publishing dates of the Standards and the relevant Interpretations thereof, which are subject to continuous modifications, and the effective dates when these Standards and relevant Interpretations thereof come into force in the Republic of Serbia. Thus, for example, the deviations from the Standards came as the consequence of the fact that the published Standards and relevant Interpretations, which came into force, have not yet been officially translated or adopted in the Republic of Serbia; as the consequence of the fact that the published Standards and relevant Interpretations have not yet come into force; or as the consequence of some other reasons beyond effective control or influence of the Company, that has not significantly impacted the financial position of the Company and the results of its operations.

Functional currency and currency used for data presentation

Amounts presented in financial statements are in thousands of Serbian dinar (RSD). The Company uses RSD as the functional and reporting currency. Transactions effectuated in non-functional currencies shall be treated as transactions effectuated in foreign currencies.

Transactions in foreign currency, upon initial recognition, are registered in dinar counter value by applying the official middle exchange rate on the transaction date, while upon differently agreed currency clause, translation of receivables (liabilities) is done at the exchange rate specified in the contract (selling FC rate of particular commercial bank, etc.)..

Pursuant to the provisions of IAS 21 - Changes in foreign exchange rates, monetary items in foreign currency (assets, receivables and liabilities in foreign currency) are recalculated at each balance sheet date by applying the valid exchange rate or the official middle exchange rate at the balance sheet date.

Gain/losses arising on the translation of foreign currency (apart from those related to monetary items as part of net investments of the Company in foreign business, included pursuant to IAS 21) are recognized as revenues or expenses of the Company for the period in which they occurred.

Official middle exchange rates of the National Bank of Serbia, at the balance sheet date, for foreign currencies used for the recalculation of monetary items in dinar counter value, are presented in the following table.

Currency	31/03/2022	31/12/2021	31/03/2021	31/12/2020

5. MANAGEMENT EVALUATION AND JUDGEMENTS

Preparation and presentation of financial statements in compliance with valid legislation of Republic of Serbia, requires that the management of the Company performs assessments, provides judgements and assumptions that are reflected on the reported amounts of assets, liabilities, income and expenses. Although, achieved results may differ from the estimated ones, evaluation and judgements are based on information available as at balance sheet date.

The most important valuations refer to the impairment of financial and non-financial assets and definition of assumptions, necessary for actuarial calculation of long-term compensations to employees based on the retirement bonus.

Within the context of valuation, the business policy of the Company is to disclose information on the fair value of assets and liabilities, if the fair value varies significantly from the accounting value. In the Republic of Serbia, a reliable valuation of the **fair value** of assets and liabilities presents a common problem due to an insufficiently developed financial market, lack of stability and liquidity in sales and purchases of, for example, financial assets and liabilities, and sometimes unavailability of market information. Despite all the above, the Company pays close attention to these problems and its management performs continuous valuations, considering the risks. If it is established that the recoverable (fair or value in use) value of assets in business books of the Company was overstated, the adjustment of value is applied.

6. OVERVIEW OF PRINCIPAL ACCOUNTING POLICIES

The basic accounting policies applied in preparation of these financial statements, which were primarily based on the Rulebook on Accounting Policies of the Company, are in line with the accounting policies applied in preparation of the financial statements for the year that ended on 31/12/2021 and were applied consistently to all the presented years, unless specified otherwise.

In cases where certain bookkeeping aspects were not regulated clearly by the provisions of the Rulebook on Accounting Policies of the Company, the accounting policies based on the currently applicable IFRS were applied.

According to the adopted Methodology for calculating the impairment of financial instruments in accordance with IFRS 9, the effects of the application of IFRS 9 – Financial Instruments (hereinafter referred to as: IFRS 9) were calculated in 31/12/2021, while the impact of the effect of the applied IFRS 9 will be reviewed at the end of 31/12/2022.

On 31 December 2021 the residual value and the remaining useful lifetime for the property and equipment with significant accounting value were evaluated. Effect of changes in accounting estimates affected depreciation costs for the reporting period (Note 11).

Assessment of Fair Value of “Buildings”

The fair value of “buildings” is usually the market value thereof that is established through valuation performed by independent qualified valutors based on market evidence.

In cases where there are no evidence of the fair value of the property in the market, due to the specific nature of the building and because such items are rarely put on sale, the Company performs valuation of fair value of the property by using the income approach or the depreciated replacement cost approach.

The Company in its business books registered "**Office building Energoprojekt**" carried at revalued amount at the assessment date.

The value of office building Energoprojekt on 31 March 2022 was stated at revalued amount in RSD 1,580,738 thousand. The value was determined by reducing fair value according to the latest estimate less subsequent accumulated depreciation. The last assessment was made on 31 December 2018 by an external independent qualified appraiser using the comparative method.

According to the relevant provisions of IAS 16, since the movements in fair value of property is insignificant, it was not necessary to estimate its fair value at the balance sheet date.

Starting from the revaluation value of the item in question as of 31 December 2021, as well as based on the assessment of the determined residual value as at 31 December 2021 and determined useful lifetime of the building (100 years; the remaining useful life as at 31 March 2022: 60 years), the amortization costs for the building over the reporting period (bearing in mind the residual value that is lower than the revalorized value thereof), is RSD 3,209 thousand.

Adjustment of the opening and closing balance of the value of buildings is presented in the Table.

in RSD thousand

No.	Building	Opening balance	Merger of EP Energodata	Total	Residual value as at the balance sheet date	Remaining useful life	Depreciation	Gains/(losses) included in Report on Other Income	Closing balance
	1	2	3	4 (2+3)	5	6	7	8	9 (2+3+7)
1	EP office building	1.583.947		1.583.947	801.260	60	3.209		1.580.738

If the revaluated items had been presented by using the acquisition price method, their current value would amount to RSD 659,795 thousand.

Advances for property in the amount of RSD 44,664 thousand refer to the advance paid to the Republic of Serbia for the purchase of properties in Uganda, Peru and Nigeria.

An executive out-of-court mortgage was constituted on the Energoprojekt office building in favor of the creditors in question following the banking arrangements with Erste Bank, Unicredit Bank and OTP Bank (Note 41).

Adjustment of the opening and closing balance of the fair value of investment property is presented in the following Table.

<i>In RSD thousand</i>						
No.	Investment property	Opening balance	Increases, (purchases, additional investments and etc.)	Decreases (sales, disposals and etc.)	Gains / (loss) included in the Income Statement	Closing balance
1	Complex "Samački hotel"	618,835				618.835
	TOTAL	618,835				618.835

In its books, the Company posted the fair value of its investment property in the amount of RSD 618,835 thousand relating to complex "Samački hotel" area of 8,034.00 m², with using right of city construction land area of 18,598.00 m², 24 Batajnički drum, Zemun.

Valuation of the fair value of complex "Samački hotel" as at 31 December 2021 was performed by external independent, qualified valuator with recognized and relevant professional qualifications and recent relevant work experience with relevant location and category of investment property appraised. In valuation of the fair value, the external independent qualified valuator used the cost approach for the building (due to the specific characteristics of the property subject to appraisal, and due to the fact that there is no offer of similar facilities for sale/rent in the market, on a similar location) and comparative approach for land.

Income amounting to RSD 5,191 thousand was generated from the rent of the property to the Energoprojekt Visokogradnja and Jerry Catering Service Ltd. in the reporting period (Note 7.3).

39. DEFERRED TAX LIABILITIES

Deferred tax assets and liabilities	in RSD thousand	
	31.03.2022	31.12.2021
Deferred tax assets	14.760	14.760
Deferred tax liabilities	204.958	204.958
Net effects of deferred tax assets / (liabilities)	(190.198)	(190.198)

Deferred tax assets are the income tax amounts recoverable in future periods based on *deductible temporary differences*.

A deductible temporary difference is generated in cases where a company's balance sheet contains already disclosed expense on certain bases, which will be recognized from the tax aspect in the following periods. Deferred tax assets are verified on 31 December and are recognized only if it is considering probable that the deferred tax assets will probably be used to reduce a taxable income in the future period.

The amount of deferred tax assets is calculated by multiplying the amount of deductible temporary difference at the end of the year by the Company's corporate income tax rate (15%).

Deferred tax liabilities disclosed as at 31 December refer to *taxable temporary differences* between the book value of assets subject to depreciation and their tax base. Due to different provisions used in the Company to define accounting depreciation (in compliance with the IAS/IFRS and other provisions) and provisions that define tax depreciation (in compliance with the Law on Corporate Income Tax), the Company shall pay higher amount of income tax in the future period than it would pay if the actually disclosed accounting depreciation would be acknowledged by tax legislation. For this reason, the Company recognizes the deferred tax liability, which represents income tax payable once that the Company "recovers" the accounting value of the assets.

The amount of deferred tax liabilities is calculated by multiplying the amount of taxable temporary difference at the end of the year by the Company's income tax rate (15%).

Authentic overview of Company's growth and business results, financial position and information of significance for its assets valuation

An authentic overview of the Energoprojekt Holding Plc. (parent Company) growth and business results, financial position and information of significance for the valuation of corporate assets is presented and explained in detail within the "Notes to the Financial Statements for Q1 2022" (see Chapter 1 of the said Statements).

Plans for 2022 include contracting of new business deals for the Energoprojekt Group in the country and abroad in the total amount of EUR 181 million, namely: EUR 95.5 million (53%) in the country, and abroad in the total amount of EUR 85.5 million (47%). During the first quarter of 2022 contracts for new business deals worth total of EUR 51 million were concluded: EUR 44.7 million (88%) in the country, and EUR 6,3 million (12%) abroad.

Description of Company's anticipated growth in the following period, changes in its business policies and main risks and threats to which its business is exposed

Starting from the strategic determination to achieve lasting and sustainable development of the Energoprojekt Group oriented towards continuous profitability growth, conducting business in its traditional markets (in the country and abroad), economically viable employment of resources and global macroeconomic trends, the following business tasks were planned to be achieved in 2022:

Priority tasks:

- Contracting new jobs and securing continuous work of the companies within the Energoprojekt System;
- Securing liquidity- activities on collection of claims and optimization of credit debt of the companies within the Energoprojekt System, as well as regular payment of due coupons of issued emission of long-term corporate bonds;
- Activities on designing promotion of common application center for accounting and bookkeeping of Energoprojekt System (Microsoft Dynamics 365 Business Central);
- Securing appropriate prerequisites for realization of business activities of the companies within Energoprojekt System.

Other business-related tasks:

- Health protection of the employes;
- Realization of all business activities, followed by suitable completing of contracts and relevant contract issues, with an imperative goal of reaching satisfactory profit level on every single project;
- Adapting new market activities and creating conditions for new contract deals, followed by maximum engagement of present capacities;
- Applying rational concept of business, with high-quality planning and supervising, maintaining technology and organizational development;
- Using all the resources and assets of the companies in business activities;
- Location development, joining concessions and private investments;
- Reinforcement of business cooperation by project and functional cooperation, with constant consolidation of corporate functions;
- Group development will be scheduled and perceived through possible structural changes and market adjustments;
- Transparency of business operations and public presentation of Energoprojekt, by means of supplying relevant information through the Stock Exchange and regular communication with investors, partners and experts, in the country and abroad.

The most significant threats to which the Company is exposed include: continuing and deepening of the global and Eurozone economic crisis; competition in the form of foreign companies from the countries with huge populations and cheap workforce; competition in the form of the foreign companies with easier access to cheaper financial resources; institutional changes in the domestic and selected foreign markets; dependency on the political stability of the markets in which Energoprojekt realizes its projects and so on.

It is necessary to establish a system for timely risks' identification and management for the business operations of the Energoprojekt in the country and in the foreign markets as one of the principal functions of the Company's internal audit. In the following period, efforts on risk management development strategy will be intensive and according to the plans, in compliance with the established annual plan of the Energoprojekt Holding Plc. internal audit for 2022.

Significant events after the end of the reporting business year

Aside of the above mentioned incorrective events occurred after the reported period, there were no significant business events from the balance date to the date of publication of the said statements, which would exert any impact on the authenticity of the disclosed financial statements.

Relevant business news on significant events are being regularly published on the Energoprojekt web site (at: <http://www.energoprojekt.rs>) and on the web site of the Belgrade Stock Exchange (in Serbian and in English), as a part of the Company's obligations related to the Prime Listing of its shares on the Belgrade Stock Exchange.

Significant business transactions with the related parties

Receivables from the related parties arise primarily from the sale of services and are mature and collectible within 15 days from invoicing date.

Liabilities from the related parties arise primarily from purchasing transactions and are mature and collectible within 5 to 30 days from purchasing date. Liabilities do not include interest rates.

Payment securities for liabilities to related legal entities were not provided by the Company.

Company's research and development activities

Research and development are not main activity of the Mother Company and its affiliates.

There are ongoing activities on further development and implementation of appropriate business and information system, adapted to current scope and planned business operations growth, as well as activities in relation with full implementation of integrated Document Management System.
